Compressed Air Purification Specialist

DS Filtration is an Australian family owned and operated Compressed Air Filtration Company with over 30 years industry experience and knowledge.

Located just 10 minutes from Eastlink in Boronia, we offer filtration solutions for not only Victoria's Eastern suburbs but Australia wide.

We can assist you in meeting Victorian Worksafe requirements for your compressed Breathing Air system.

Annual BA testing in spray booths to Australian standard (AS1715:2009) with compliance certificate issued.

We undertake a comprehensive test onsite recording levels of Oxygen, Carbon Monoxide, Carbon Dioxide, Oil, Odour Temperature, Relative Humidity and Water Vapour.

We stock an extensive range of alternative filter elements from leading manufacturers including Air Filter Engineering, Atlas Copco, Boge, Ceccato, CompAir, Conquest, donnick hunter, Donaldson, Friulair, Hankison, Hiross, Ingersol Rand, Kaeser, Mikropor, Omega, OMI, Parker, SCS, SMC, Ultrafilter, Walker and Zander.

Our own range of filters the FP series consists of 1/2" to 3" connections and suit a wide range of compressors with a capacity up to 2000 scfm.
