

Ultrasonic Cleaning

If you looking for a fast and economical alternative to replacing a filter element, then look no further than Ultrasonic Cleaning.

Over time, filter elements can become clogged with rust, oil, grease and other fine contaminants.

DS Filtration can clean metal, ceramic or stainless filter elements using our ultrasonic bath. A gentle, economical and environmental friendly option avoiding harsh chemicals, high pressure or hours of hand scrubbing.

ECONOMICAL & ENVIRONMENTALLY FRIENDLY

Benefits of Ultrasonic cleaning

- *Consistent and through clean without damaging element.
- *No other method is as fast & reliable.
- *Environmentally friendly.
- *Employees are safe from handling/using harsh chemicals.
- *Cleans a range of materials. Ceramic, Metal and Stainless Steel.
