

Condensate Management

Oil Water Separators, Carbon Kits and Drains

Without the correct drainage or condensate management the dirty oily water in the compressed air can cause corrosion, rusting and blockages in your system and tools...costing you time and money!

We have a wide range of condensate management including:

- * Centrifugal water separator which complement our FP Series filter range.
- * Sepura Oil Water Separators and service kits.
- * Carbon Kits (Atlas Copco, dh, Comp Air, Ultrafilter, Zander and Jorc.
- * Condensate drains including 1/2" timed solenoid drains, Zero-Loss and Cannon ball.
- * Internal auto drains for Atlas Copco, Conquest, domnic hunter and Zander.

DS Filtration also stocks loose desiccant (activated alumina and activated carbon) we can ship by the kilogram, 20kg bag or drum (depending on your requirements).

We have the condensate management combinations suitable for any compressed air system. **Call us today 03 8719 5249 to discuss your needs.**
